Roaaaaaaaaaaaaaar!!!!

It is getting really exciting on the playground now! Climbing, riding, crawling through and jumping down: the **climbing safari** is an expedition of its own, everyday anew.

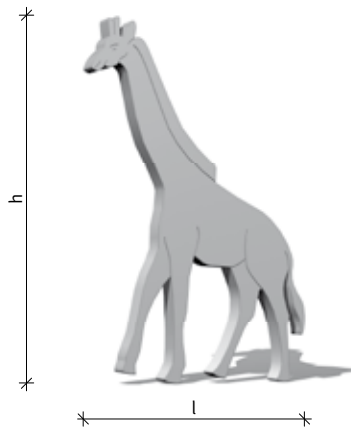

With **Concrete® Young** we developed a product line with a clear concept: playing and sports equipment have to be fun, but they also have to feel good and have to take a lot for a very long time. Although this sounds easy it requires a high level of empathy and experience.

**A****LION**

ITEM NO.	LENGTH	EFFECTIVE HEIGHT
